Respected sir

As per the provisions made by you Dr Dhole and Mrs Kakatkar came to Bidri region. They have conducted lectures and interacted with students and researchers in our institute. Dr Dhole has been working on Ghansala rice variety in the Ajara Taluka. Interaction with them will probably start the collaboration between BARC and Bidri for agriculture research. I am very grateful to you and Director BARC for giving this opportunity.

Thanking you once again

Yours sincerely
